

## AFCEA Quantico-Potomac (QP) Grant Application

AFCEA QP is a chapter of AFCEA International that serves primarily the United States Marine Corps, and the industry and academia that supports Marines.

We provide grants for Science, Technology, Engineering and Mathematics (STEM).

### Requirements for submission

We suggest a simple cover letter and itemized list of requirements. The cover letter is best on organizational letter head. It should be two pages (max) and include:

- Name of your organization. Ex: [Name] High School
- Summary of what your org does (if not obvious)
- What the grant will be used for. Should focus 100% on STEM
- Your org's POC

Your itemized list can be via Word or Excel. It should include the breakdown of costs for your grant request.

Your request will be briefed at the next available board meeting. Your POC should receive notification within 45 days.

POC is James Longi at 571-379-1278 / [scholarships@afcea-qp.org](mailto:scholarships@afcea-qp.org).

*Thanks for taking the time to explore a partnership with AFCEA QP!*
