Product Manager
Marine Corps Network & Infrastructure Services

Mission - Focus our people, enterprise knowledge and processes to support the design, acquisition and sustainment of the Marine Corps Information Technology Environment (MCITE).

Vision - Achieve a secure, affordable, modern MCITE fully integrated through delivery of common services, standard processes, and tools.

APPROVED FOR PUBLIC RELEASE : DISTRIBUTION UNLIMITED

Next Generation Enterprise Network:

- NGEN is a Government Owned/Government Operated (GO/GO) model augmented by NGEN contractors with the garrison Marine Corps Enterprise Network (MCEN) representing NGEN Marine Corps management domain.
- Multiple contracts provide support to the MCEN-N through equipment technical refresh and hardware/software license and warranty generating lifecycle support services

TOTAL FORCE INFORMATION TECHNOLOGY SYSTEMS

We deliver high-quality, well-engineered, and value-added applications and IT systems on-time that support, encrich, and meet the needs of our diverse stakeholders, the Warfighter, and the USMC Community.

Managed Applications:

- Defense Message System
- Defense Readiness Reporting System - MC
- Defense Travel System
- Paperless Office/Acquisition
- Defense Casualty Information Processing System
- Marine Corps Recruiting Information Support System
- Manpower Operations Systems
- Manpower Planning System
- Automatic Identification Technologies
- Transportation Systems Portfolio
- Marine Corps Training Information Management System

Program Manager's Final Comments

- **Increasing cyber requirements and fiscal constraints requires delivery of more affordable capabilities in shorter timeframes**

- **The desired result is an increasingly integrated IT environment**

- **Major Information Systems & Infrastructure focus areas:**
  - **Agility from "Fighting Hole to Flagpole"**
  - **Key drivers and building blocks for seamless MCEN**
  - **Consolidate application post deployment support**
  - **Integrated Cloud Development and Test Environment**
  - **Unification of legacy networks**
  - **Windows10 migration**
