

Marine Corps Cyberspace Operations Group (MCCOG)

AFCEA

Quantico – Potomac Chapter

Colonel Wendy Goyette
Commanding Officer
26 January 2017

Overall Classification: UNCLASSIFIED

"The entire operation was directed by Navajo code...Were it not for the Navajo code talkers the Marines never would have taken Iwo Jima" – Major Howard Connor, 1945

Native American Code Talkers used their complex languages and dialects to enable secure and rapid communications during World War I and World War II.

Operating and defending today's digital communication networks is very similar to the historic employment of Code Talkers in the protection of voice communication.

Evolution of the Threat

Conventional Threats

"#1 Strategic Cyber Threat"
Director of National
Intelligence

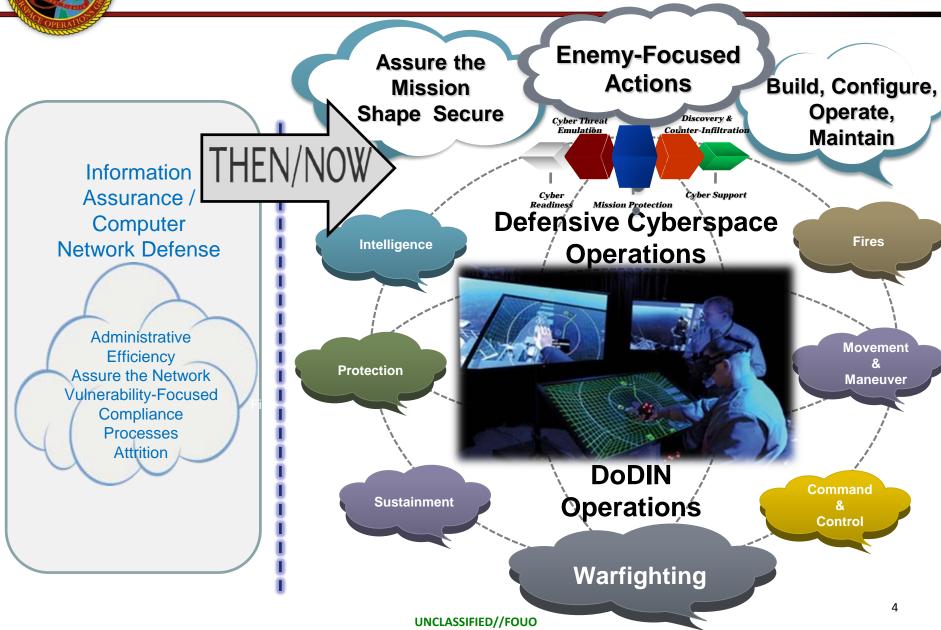

Non-Conventional Threats

Change in Mission – IT to Cyber

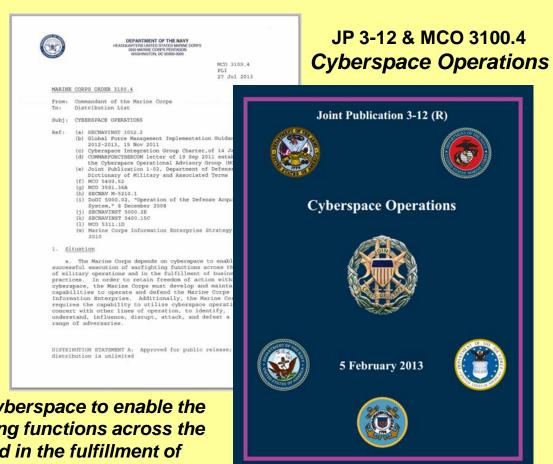

The Marine Corps Cyberspace Operations Group (MCCOG) executes:

- Department of Defense
 Information Network Operation
 (DoDIN OPS) and
- Defensive Cyberspace Operations (DCO)

in order to enhance freedom of action across warfighting domains, while denying the efforts of adversaries to degrade or disrupt this advantage through cyberspace.

"The Marine Corps depends on cyberspace to enable the successful execution of warfighting functions across the range of military operations and in the fulfillment of business practices."

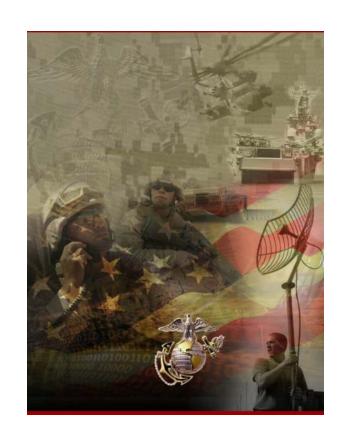

"Warfighters Supporting Warfighters"

Operate and Defend the MCEN

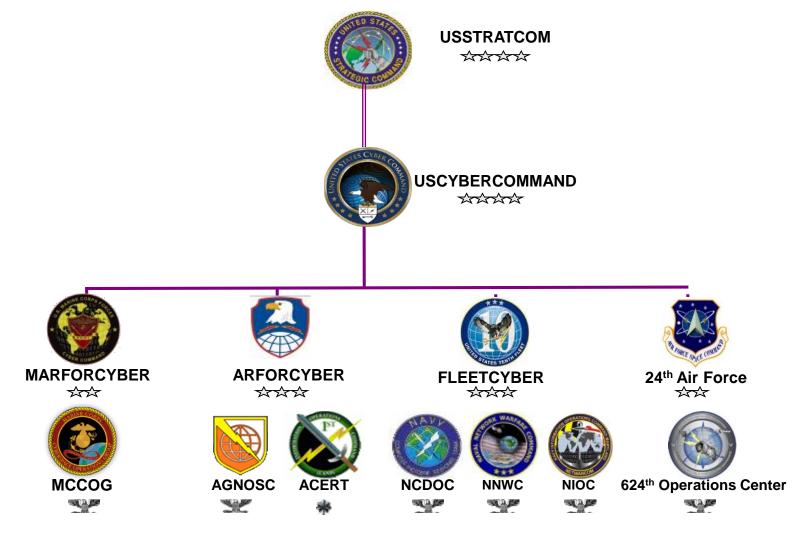

Innovate

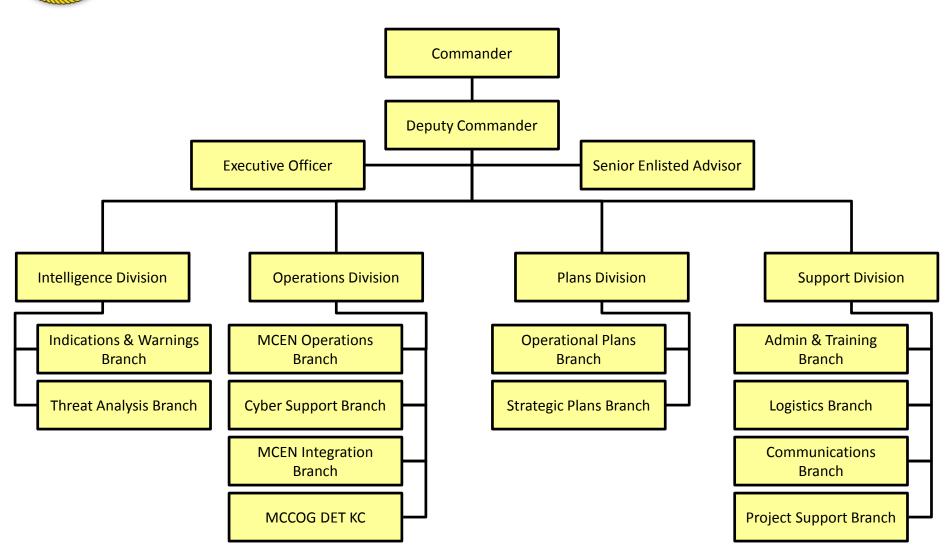

Provide Engaged Leadership

Cyberspace Task Organization

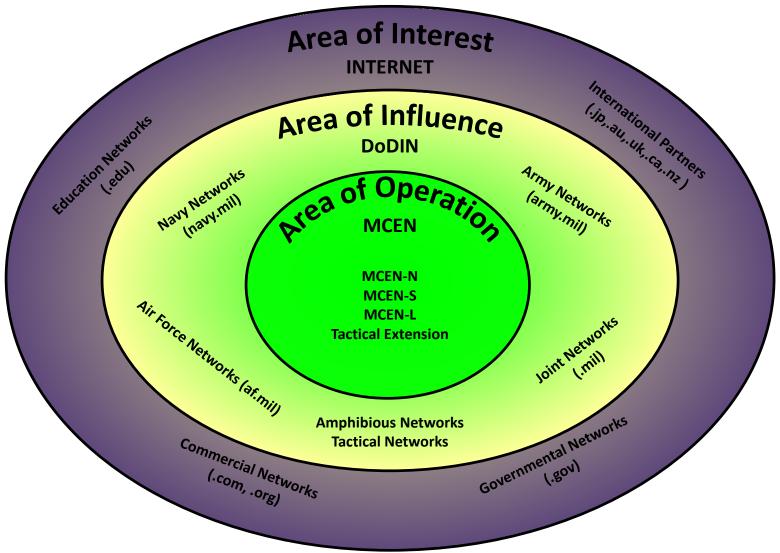

Global Presence

Operational Support

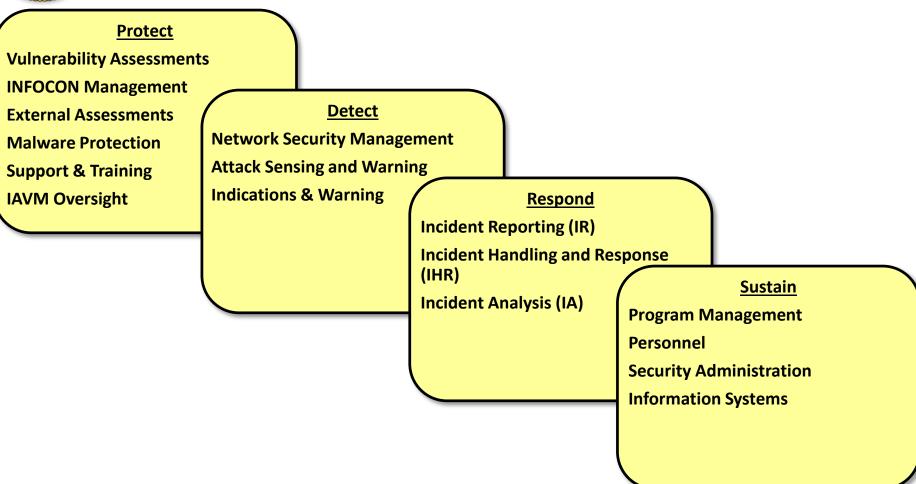

- MCEN Operations and Defense
 - 24/7/365 Operations Center
 - Enterprise Services
 - Network Infrastructure
 - Sensor Management
 - Event Monitoring
- Deployed Support
 - Pre-deployment technical assistance
 - Shipboard integration/optimization
- Exercise Support
 - Advise and train MAGTF
 - Assess, secure & harden exercise networks
- Cyber Protection Teams
 - Defensive cyberspace operations -"maneuver element"

Cyberspace Security Provider (CSSP)

A CSSP provides cybersecurity services to implement and protect the DoDIN.

-DODI 8530.01 07 Mar 2016 & SISO Memo 06 Jul 2016

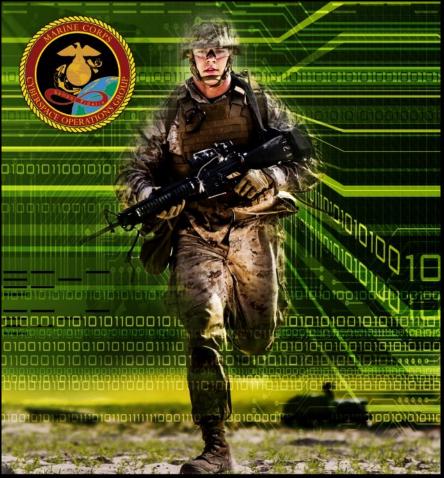

Challenges / Opportunities

- Cyber Focus for Workforce Skillsets
 - Evolve and expand current training
 - Future Force 2025 / Cyber MOS
 - Keep pace with growing threats and emerging technologies
- DoD/Industry Security Partnership
 - Increase knowledge and awareness in defense of the internet and American interests
 - Share best practices and threat information
 - Maximize partnerships in a resource constrained environment
- Defense of the Cyber Persona
 - Tactics to defend the cyber persona in the future battle, especially key targets

"To better collaborate with joint, allied, coalition, interagency and non-governmental partners, we will continue to develop and leverage enterprise and tactical digital interoperability solutions."

General Joseph F.
Dunford, Commandant
of the Marine Corps
"36th Commandant's
Planning Guidance" 2015

THE EFFECTIVENESS WITH WHICH WE OPERATE AND DEFEND
THE MARINE CORPS WARFIGHTING NETWORK
INFLUENCES OUTCOMES ON THE BATTLEFIELD.

"Like war itself, our approach to warfighting must evolve...As Marines have always done, we will continue to seek new opportunities and develop solutions that maintain an overwhelming tactical advantage over any adversary."

General Robert B. Neller,
Commandant of the
Marine Corps
"A Message from the 37th
Commandant," October
2015
